

Our Mission & Vision Statement

Our mission statement is meant to be a brief description of our fundamental purpose—answering the question, "Why do we do, what we do?" It drives the way we serve our diverse patients and we're proud to share it with everyone, especially our patients:

To provide excellent comprehensive dental care with compassion and integrity in a safe, friendly, fun environment—serving our diverse community with a positive and generous spirit.

While our mission talks about why we're here, our vision describes where we're going! It's a little aspirational and we like it that way:

Become a practice known for our compassion and excellence where patients love to come and employees love to serve.

Our Continuing Commitment to You

Whether you're a long-time patient of ours, or you're just joining us, know that exemplary patient care, outstanding aesthetic results, compassion, and integrity are the cornerstones of our dental practice. Incorporating the latest technology, our skilled and experienced dental staff will handle all of your oral health needs including general, restorative, cosmetic and family dentistry.

The more you know, the better equipped you are to make wise decisions about your health care. Among our most important functions is to educate our patients as to their treatment options. At our state-of-the-art dental practice, we take the time to speak to you about your treatment goals and we will make recommendations allowing you to make the most educated oral health care decisions.
